June 2025

To: All Graduating Seniors & Current Scholarship Recipients:

I would like to personally encourage all Gouverneur High School seniors, and all Gouverneur High School graduates currently attending college to consider applying for available scholarships.

Scholarships are available ranging from \$1,000 to \$6,000 and made possible only by the generous support of individuals and businesses within our community to students who plan to attend post-secondary programs. There are also "special" awards, i.e., Adler and Levinson Scholarships, for varying amounts and with specific requirements available to qualified applicants as well as one scholarship available to a Harrisville graduate and two that go to graduates of Edwards-Knox.

Scholarships are awarded on a non-discriminatory basis considering only the financial need and academic qualifications of each applicant. Students from middle-income families should consider applying since the Foundation, in assessing financial need, does consider the financial circumstances of the family and extenuating circumstances.

Scholarship information and applications are available through our website: gouverneurfoundation.com. *The deadline for applications is July 1, 2025. Any applications received after this date, or which are not complete, will not be considered. The Foundation looks forward to supporting the careers of as many Gouverneur area students as possible.*

Sincerely,

Lauren F. French
PRESIDENT, GOUVERNEUR FOUNDATION, INC.
