Comprehensive Needs Assessment

Description of School

Based on the most recent enrollment and school report card data on data.nysed.gov, Gouverneur High School is considered a small rural district with approximately 467 students grades 9 – 12 in one district wide building. Approximately 66% of the students are economically disadvantaged, 17% of students with disabilities and 2% of the population is racially diverse. 100% of classes were taught by highly qualified teachers.

All children and youth enroll in, and have full and equal opportunity to succeed at Gouverneur Central School District. All students regardless of their socio-economic status or ethnic group are provided the same educational programs equitably. The district strives to maintain and hire staff that are highly qualified.

Coordination with Other Programs

The Schoolwide Plan is developed in coordination and integration with other Federal, State, and local services, resources, and programs, including other ESSA-Funded programs, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities.

Annual Evaluation to Monitor the Effectiveness of the Schoolwide Plan

Using data from the State's assessments, other student performance data, and perception data, the school will determine if the schoolwide program has been effective in addressing the major problem areas, and in turn, increasing student achievement, particularly for the lowest-achieving students. The school will annually revise the plan, as necessary, based on student needs and results of the evaluation to ensure continuous improvement.
